

Stockholm, March 6.

IS Royal Swedish Highness is returned safely to this Capital, to the great Joy of the People, who shew, every Day, more and more Affection for his Person, which is chiefly owing to his wife Behaviour, and to his Treating Men of all Parties with equal Kindness and Freedom, without entring

at all into their particular Notions. It is said, that a Synod will be shortly held at Stegnes, a Town about 11 Miles distant from hence, in order to put an End to some Religious Disputes, that have for some Time, disturbed the Minds of Men in this Country. Orders have been sent to Count Telfin, to repair immediately to Berlin, to demand the Princess Ulrica, his Prussian Majesty's Sister, in Marriage for the Prince Royal; and it is publicly said at Court, that this Princess will arrive here in the beginning of May, and that the Marriage will be solemnized before the King sets out for Germany.

Warsaw, March 11. The famous Captain of the Peasants, Wolski, is at last apprehended, and it is thought, will be speedily Tried, and Executed; his Followers have, most of them, been so wise, as to repair to their own Habitations; and it is believed, that no great Enquiry will be made after them, but Things will be suffered to subside of themselves, and without Noise. We are still apprehensive of seeing a Civil War break out in this Kingdom, about the Succession of Prince James Sobieski, notwithstanding all the Pains that have been taken to compromise Matters between the Contending Parties. The Republick is extremely satisfied, as well with the Conduct of the King of Prussia, as with that of the Czarina, each of these Princes having sent express Orders to their Governors upon the Frontier, not to suffer either Party to draw any Assistance whatsoever out of the Countries under their Jurisdiction, or to find in them any Retreat.

Frankfurt, March 12. The Imperial Regiments which are already perfectly recruited, and most of the Cavalry recruited, have Orders to hold themselves ready to march on the first Notice. It is thought, they are able to form an Army of 30,000 Men, all very fine Troops; but where, or against whom they are to be employed, is a Secret not easy to discover. An Express is this Moment arrived, with the unexpected News, that Prince Lobkowitz having received Intelligence of the Defeat given to the combined Fleet in the Mediterranean, had immediately assembled his Army, and marched directly towards the Spanish Army in its Retrenchments; who, notwithstanding their strong and numerous Works, fortified with near 90 Pieces of heavy Cannon, instantly deserted them, and retired precipitately towards the Frontiers of the Kingdom of Naples, where they are to be supported by 10,000 Foot, and 2500 Horse and Dragoons.

Dusseldorf, March 14. Our last Letters from Italy have some very astonishing Circumstances; they say, that the Austrian Army, under the Command of Prince Lobkowitz, came up, on the 11th, with a Spanish Army near Sinigaglia, and engaged them, when, after a Dispute of a few Hours, their Foot was abandoned by their Cavalry, and entirely routed. This Account is in several private Letters, but seems, notwithstanding, to need Confirmation.

Paris, March 17. Among other Satires on the Times, the following has made a great Noise here, and is, by some, esteemed, a very humorous Performance; however, such as it is, it is at your Service.

To His Excellency the Hon. GEORGE CLINTON,

Esq. Captain-General and Governor in Chief of the Province of New-York, and Territories thereon depending in America, and Vice-Admiral of the same, &c.

The humble ADDRESS of His Majesty's Council of the said Colony.

May it please your Excellency,

WE his Majesty's most dutiful and loyal Subjects, the Members of the Council for this Province, joyfully congratulate your Excellency's safe Arrival in your Government, with your Lady and Family.

We are persuaded, the People of this Province, are most sensibly affected by the numerous manifest Proofs his Majesty has given of his Affection to his People, and of his Zeal for the Liberty of Mankind, lately most evidently demonstrated in his exposing his Sacred Person to the greatest Dangers, in Defence of the Liberty of Europe. And we are satisfied, the People of this Province take his Majesty's appointing your Excellency Governor in Chief, as an Instance of his Royal Favour to them. Your Excellency's immediate Descent from that ancient Noble Family, which has distinguished itself through many Generations, by their Loyalty, Courage, Probity and Benevolence, together with your Excellency's past Life, in the Service of your King and Country, shew his Majesty's gracious Intentions in sending your Excellency to Govern us.

It is with the highest Satisfaction, we observe the favourable Sentiments your Excellency has been pleased to express, concerning the People of this Province; we look upon it as a happy Preface of that Harmony, and good Agreement, which we trust will subsist between the several Branches of the Legislature.

As we cannot doubt of the Uprightness of your Excellency's Declaration, in the Assurances you have been pleased to give us of your steady adherence to the Principles of Justice, and of your Regard to the Rights and Privileges of the People; so neither can we doubt, but that they will make such dutiful Returns as his Majesty's most gracious Favours to them require, and your Excellency's Personal Merit deserves.

We do assure your Excellency, that the Matters you have recommended to us, for the Safety and Prosperity of this Colony, shall be the Subject of our most serious Consideration: And as you will endeavour to make us a happy and flourishing People, so we of his Majesty's Council, will, on our Part, charitably and assiduously contribute every Thing in our Power, which may best conduce to the Honour of your Government, the Ease of your Administration, and the Welfare of the People.

By Order of the Council,

Nov. 10, 1743.

CADWALLADER COLDEN, Speaker.

To which his Excellency was pleased to answer,

Gentlemen,

I return you my Thanks, for the Joy you express on my safe Arrival, with my Family, into this Government.

The grateful Sense you have of his Majesty's Affection to his People, and his Zeal for the Liberties of Europe, in exposing his most Sacred Person to the greatest Dangers, cannot fail of recommending you to his Favour, and is highly acceptable to me.

You may rely on the Assurances I have given, as I cannot have a greater Pleasure, than to see the People of this Province flourishing and happy during my Administration.

GEORGE CLINTON.

To His Excellency the Hon. GEORGE CLINTON,

Esq. Captain-General and Governor in Chief of the Colony of New-York, and Territories thereon depending, Vice-Admiral of the same, in America.

The humble ADDRESS of the General Assembly of the said Colony.

May it please your Excellency,

WE his Majesty's most dutiful and loyal Subjects, the General Assembly, humbly embrace this Opportunity, sincerely and heartily to congratulate your Excellency on your safe and happy Arrival, with your Lady and Family, into this Colony, in the exalted Station of Captain-General and Governor in Chief.

As his Majesty has been pleased to vest that Authority in a Gentleman descended from an Antient and Noble Family, and who has long borne considerable Commands in his Service; so we conceive just Grounds to promise ourselves, that, under your Excellency's Administration (in Imitation of our Royal Sovereign, the Darling of his own People, and the glorious Preserver of the Liberties of Europe) the Rights, Liberties, and Properties of the People here, will be continued and secured to them.

Of this we have the Pleasure and Satisfaction to account ourselves well assured, by the kind Declaration your Excellency was pleased to make when the late Assembly was dissolved: That you were come with a sincere Intention to make the Prosperity of the Colony the chief Care and Study of your Administration.

As that Dissolution must be allowed to confirm the said Declaration, so it answered, the Expectation of the People, and will very much contribute to preserve the Peace and Quiet of the Government. Whereas the first Continuance of an Assembly, after the Publication of a new Commission, occasioned no small Discontent among the People; and of the last, a great Handle was made to foment our late unhappy Divisions.

On our Part, we have Leave to assure your Excellency, that we have the Service of his Majesty, and the Welfare of the Colony, equally at Heart; and that we are met with a real Disposition to make your Administration easy to Yourself, and happy to the People we have the Honour to represent.

We further beg Leave to acknowledge the favourable Speech which you have been pleased to make to us, at the opening of the Session, and to return our humble Thanks for the kind Assurances declared in it; and we, on our Part, do assure your Excellency, that the several Matters recommended to us, shall, in the Course of our Proceeding, be considered with that Attention which their Importance require; so far as the advanced Season, and the Circumstances of the Colony, will reasonably admit.

And as, in Consequence thereof, we are heartily disposed to provide Means for the further Support of the Government, in an honourable Manner, so we persuade ourselves, that such Bills as shall be passed for the Service of his Majesty, and for the Good of the Colony, will not fail of obtaining your Excellency's Assent.

By Order of the House,

ADOLPH PHILIPSE, Speaker.

To which his Excellency was pleased to give the following Answer;

Gentlemen,

I return you my Thanks for your kind Address, and am well pleased the Dissolving the Assembly, upon the Publication of my Commission, has answered the Expectations of the People.

You may depend upon the Assurances set forth in my Speech; and I persuade myself, that the several Matters recommended therein will have their proper Effect; since they will not only manifest your Attacks

faction, than it can to the People in general.

GEORGE CLINTON.

The late vigorous Attempts of the Emiffaries of Rome, to diffuse their poisonous Tenets among a free and Protestant People, and that under the happy Government of an illustrious Protestant Prince, must raise in every sober and reasonable Mind a just Indignation against them, and a tender Compassion to the Weak and Ignorant, who are most exposed to their horrid Delusions. Surely, never did any Thing, that was the sacred Name of Religion, appear in the World, so grossly absurd and detestable as Popery, which is the most Merchandise of Men's Lives and Souls, and lies in direct Contradiction to Reason and Revelation, to Morality and Common Sense, and to all the dearest Interests of Civil Society, of Liberty, Conscience, and Eternal Salvation.

A Pamphlet hath been twice published within this Twelvemonth, call'd, *A Present for an Apprentice*, which, on Account of its unpromising Title, I don't question but many others as well as myself, have overlook'd. Scarcely calculated for low and unexperienced Life, it excited no Curiosity in those above that Level. 'Twas therefore, with not a little Surprise, that, on dipping into it, I found such a System of Morality and Oeconomy as Persons of all Ranks might improve by, delivered in such a Style, as the most accomplish'd Readers might be delighted with. In short, a Work, which, if universally known, would be an universal Good, as containing all the Requisites to render Mankind honest, wise, sociable, and virtuous.

Law of the KING'S ROYAL LETTERS PATENT :
An **ABSTRACT** of which is as follows,
GEORGE R.

GEORGE the Second, by the Grace of God, of Great-Britain, France, and Ireland, King, Defender of the Faith, &c. to all whom these Presents shall come greeting. Whereas Our Trusty and Well-beloved Thomas Greenough, of St. Sepulchre's, in Our City of London, Apothecary, has represented unto Us, that at a considerable Expence, and much Study, he has at last found out and invented a **MEDICINE** that destroys the **SCURVY** in the **GUMS**, fastens the **TEETH**, preserves them white and beautiful, sweetens the **BREATH**, and effectually cures the **TOOTH-ACH**, as Multitudes of Our Subjects have happily experienced, &c. And We being willing to give Encouragement to all Arts and Inventions which may be for the publick Good, know ye therefore, that We, of Our especial Grace, certain Knowledge, and mere Motion, have given and granted, and by these Presents, for Us, Our Heirs and Successors, do give and grant unto the said Thomas Greenough, his Assigns, &c. and such Person only as they shall agree with, Our especial Licence, full Power, sole Privilege and Authority, to vend the same, &c. And we do by these Presents strictly command all our Subjects not to put in Practice the said Invention, nor in any Ways counterfeit, imitate, or resemble the same, as they will answer their Contempt of this Our Royal Command.
In Witness whereof We have caused these Our Letters to be made Patent.

Witness OUR SELF at Westminster, the 9th Day of February, in the Seventh Year of Our Reign.

Notwithstanding the Complaints of the Teeth and Gums are so general, and the Pain of the *Tooth-Ach* so intense and intolerable, no Medicine has yet been offer'd the Publick which carries the least Shew or Probability of curing either. For cleaning the Teeth, and making them white, the *Powders* have hitherto bid the fairest, and will in a great Measure answer that Purpose; but then the Remedy is worse than the Disease, for those very *Powders* rub away the *Gums*, wear off the *Enamel* from the Teeth, leave their *ony Substance* expos'd to Air, and thereby subject the Teeth to Decay: A Consequence had enough!

Nor are the Methods of curing the *Tooth-Ach* much better calculated, there being nothing yet propos'd but *Drawing*, or the Use of such Medicines as tend to destroy the *Nerve* of the Teeth, and of course the Teeth itself.

The Reason we have hitherto had no effectual Remedy for either of those Complaints, seems to be this, That the Cause of the Disorder has not been rightly understood. 'Tis what the Faculty have seldom concern'd themselves with, and therefore it has for the most part been left to the Province of People quite unskill'd in Anatomy and Physick, from whom little Benefit can be expected.

Experience tells us, that a *Diffusion of Humours* is the true Cause of the Pain, and that a *too weak and lax Texture of the Fibres* that compose the *Gums* (the Consequences of which are, that the Blood and Humours of the Parts become liable to a Stagnation, or weak Circulation, from whence they grow putrid, sharp, acrimonious, and corrosive) is the true Reason of the other Disorders of the Teeth, and of the Scurvy in the Gums.

To cure, therefore, the *Tooth-Ach*, a Medicine should be applied that will both attenuate and dissolve the Humours, and prevent a further Diffusion; and to remedy the other Disorders of the Teeth and Gums, such Things should be made Use of as will strengthen and brace up the Fibres, and promote the Circulation of the Humours; and 'tis upon this Basis that the present Medicine is founded.

The above Medicine, that it may be more effectual, and be more conveniently used, is divided into two Tinctures:

The One for Preserving the TEETH,

Which in a few times using perfectly cures the Scurvy in the Gums, causes them to grow down close and regular to the Teeth, makes the foulest Teeth white and beautiful, preserves them from growing rotten, and keeps such as are decay'd from becoming worse; and in a little Time removes the Cause of an ill-scented Breath, except where the Lungs are ulcerated. Each Bottle of this Tincture is seal'd with the above Impression in Red Wax. Price One Shilling.

The other for Curing the TOOTH-ACH,

Even when most violent; into which a larger Proportion of some of the Ingredients (with a little Variation) is put, to make it more immediately effectual. Each Bottle of this Tincture is likewise seal'd as in the Margin, with Black Wax. Price One Shilling.

N.B. By Virtue of the Patent above-mention'd, I have appointed John Newbery, my only Vendor of these Tinctures, to whom all Persons are desir'd to apply for them, at his Warehouse, the Bible and Crown, near Devereux-Court, without Temple-Bar, London; and at his Shop in Reading, Berks: At which Places, Merchants, Captains of Ships, and Country-Dealers, will have good Allowance to sell again; and particular Bills in any Language will be printed for such as take Quantities for Foreign Parts.
Sold also retail at my House, near St. Sepulchre's Church, on Snow-Hill, London.

THOMAS GREENOUGH.

To prevent Mistakes observe the following Direction.—If you have any Disorder in the **TEETH, GUMS, or BREATH**, ask for the Tincture for preserving the Teeth; but if you are afflicted with a Pain in the **TEETH** only, then ask for the Tincture for curing the **TOOTH-ACH**.

A Print of the Hon. JAMES ANNELEY, Esq. Curiously engraved by William Jackson, Done from an Original Painting of Mr. King's of Orléans, With a Scene on one Side, of the Attempting to Engage out of the Ship that transported him to America; on the other, a View of his Hunting Beavers in his Slavery. That a Picture of such Importance might come abroad into the World with all possible Correctness, it is lay'd the Publication till it had undergone an Examination as to its Likeness, by the Painter, and others conversant in Ireland.
Published by M. Cooper, in Paternoster Row; C. Colburn, in Fleet-street; G. Bickham, in May's Buildings, Covent-Garden; and only by Mr. Manwaring, in Dublin, on College Green.
N.B. Some printed on Paper of the Size to bind with the Trial in Folio.

Dr. ROBERT EATON'S BALSAMICK STYPTICK.
Truly prepared and sold at the Doctor's late Dwelling House, now Mrs. DUTTON's, in Salisbury Court, Fleet-street.

THIS Medicine restrains, in a most surprising Manner, all internal as well as external Hemorrhages, &c. it infallibly and quickly stops all dangerous Bleedings at the Nose or Gums, spitting or vomiting Blood; also the immoderate Flux of the Hemorrhoids or Piles; bloody Urine or Stools, bleeding of large Wounds, &c. (if used according to the plain Directions given with it) will appear by the Certificates of several Eminent Physicians, and in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians, a little before his Death.

It keeps good for many Years, at Sea or on Shore, in all Climates; therefore must be universally Useful.

The Doctor not only obtaining his Majesty's Letters Patent for the sole Vending of this most Excellent Medicine, but also a Clause in a late Act of Parliament, exempting this Medicine from the Inspection of the Gentles of the College of Physicians, to which all other Medicines are liable.

N.B. The late Learned Dr. CHEYNE, in his Excellent Piece, entitled *The Natural Method of curing the Disorders of the Body*, &c. professes EATON'S STYPTICK to be the best of other Stypticks; and speaks of it as follows:—'Every one knows the agglutinating Quality of Sweet Blood, and I apprehend it is to this, that EATON'S Styptic owes its mild, folding Efficiency.—It is more mild, soothing, and soft, than the mildest Sweet Preparation; and is able to patch a Hole, or glew up a Rupture, or to give a Halt to the acrid and inflaming flowing Blood of the Piles. I say, he is confirmed in this by a Physician of great Worth and Candor, who has great Opportunities of seeing in his Cases, by his Practice in Midwifery. See p. 10.'

Dr. FREIND'S Specifick Powder for the GREEN-SICKNESS:

BEING an excellent Chemical Preparation, which soon removes all Symptoms of that Disorder, Loss of Appetite, Shortness of Breath, Pain and Swelling of the Head and Heart, Sinking of the Spirits, Lowness of Weariness without having Labour'd, Disinclination to Exercise, &c. It destroys all Viscidities of the Blood, opens Obstructions, and quickly changes a pale ill Complexion into a florid beautiful Complexion. This Medicine is not unpleasant to take, of a grateful Smell, and of a safe Nature, that it may be given to a Child of three or four Years old. It excites neither Vomiting nor Purging, but cures by operating upon the Blood and Juices.
Sold by the Gentlewoman at the Potter's Shop facing the Church Passage in Salisbury Court Fleet Street, at 11 o'clock the Bottle. Good Allowance is made to such as take a Quantity. Where is likewise sold, 7 s. 6d. the Bottle.

BOERHAAVE'S Chemical Elixir:
Being
A real SPECIFICK for Curing the WHITES in Women:

AS the immediate Cause of this Melancholy Disorder is, a Weakness of the Fibres and Vessels of the Womb, and a retarded Circulation of the Blood thro' the Vessels; this Medicine wonderfully strengthens those Fibres and Vessels, and gently increases that necessary Circulation of the Blood thro' them. It strengthens the Fibres, and amends the Solids and Fluids; a depraved State of which is another Cause of the worst Kind of this Disorder. Hence it restores decay'd Nerves, causes Conception, and prevents Miscarriages. It removes Pains and Weakness of the Back, and those pricking Pains often felt in the Præputia and all other Symptoms of this Disorder.

Where may also be had, [Price One Shilling a Box]
